

Barry PACT Shopwatch Radio Link Scheme

"As the Chairman of BARRY PACT I work in conjunction with Apex Radio Systems and the retail community trying to constantly prevent store theft and tackle anti-social behaviour within the town of Barry.

Apex Radio Systems set up in 2004 a very successful Shopwatch scheme which allowed all local business's the opportunity of constant two-way radio communication with one another using the Handportable Security Radios that Apex supply. Since Apex introduced the scheme we have noticed significant improvements in terms of the security of the town for which we hold Apex in extreme high regard.

As well as being the Chairman of BARRY PACT I also work for TESCO as a Security Manager (Store 2081). This store also uses one of the Apex Radio Systems and proves to be beneficial on a daily basis to the Tesco store, promoting piece of mind and improving security to both staff and customers alike.

Through working with Apex at BARRY PACT I have been extremely impressed with both their quality of service as an organisation and their professionalism afforded to me as a customer. With these skills, Apex provides support and understanding to help us overcome the current critical issue with the payment of invoices that my store has experience for some time.

Through my experience working closely with Apex for the last 5 years I can honestly say that any internal systems they could provide or would suggest, would be specific to our needs and enhance our internal communications. I would be 100% supportive of Apex supplying internal radios to our store to take communication within the store to the next level.

Apex seem to be a customer driven company and in my experiences always strive to ensure that customers are happy and satisfied with both the equipment and service provided."

**Dave Sharpe - CCTV and Customer Security Manager
Barry PACT (Preventing Anti-Social Crime Together)**
