

Leigh Town Centre Management Wigan Council

"We've been working in partnership with Apex Radio Systems Ltd. for over 6 years and have found them to be a friendly and customer focused company.

The company supply the radio communication system for the annual Leigh Town Centre Christmas Light Switch On Event. This is a critical part of our 'Risk Assessment' and 'Safe Working Methodology', providing the essential communication link between the co-ordinating officers, police, stewards, medical and pyrotechnical teams – without it the event could not take place.

Staff from Apex Radio Systems Ltd. will ring us prior to the event to enquire what our requirements are and give advice, they will then phone to confirm safe delivery of the equipment and following the event call to arrange the collection and enquire how the event went.

The company also helped establish the Leigh Pub and Club Watch Radio Link System; this provides a radio link between the door staff of the different pubs and clubs in Leigh and enables them to speak with one another, the police team in the Town Centre and CCTV staff operating the camera system back in Wigan.

Apex Radio Systems Ltd ensures our radio communications requirements are met and our experience is that all their staff are friendly, approachable and customer orientated."

Andrew Sharrock - Township Manager, Wigan Council
Janis Maleedy - Town Centre Manager, Wigan Council
