

Keeping You Safe

UK's No. 1 for Quality, Service and Value

Nestlé UK Ltd. Fawdon site

As one of the UK's most recognised business names Nestlé understand just how important it is to find service providers who make their life easier, and have been an Apex customer for over 13 years.

"At Nestlé we used to spend a great deal of time and money by using mobile and DECT phones. We found ourselves in a position where the cost of such devices was getting too expensive and when there was a problem with them we had to wait too long and spend too much getting them replaced.

In 1997 I'm glad to say someone recommended Apex Radio Systems to us and since then our communications have been made a whole lot easier. From the very first time we spoke to Apex they were friendly and professional. They also explained what we needed, (and more importantly what we didn't need). This not only saved us lots of time but it also saved us money as well.

Since then whenever we need something they are always ready to help out and this has meant the site now has total coverage.

For any company big or small I would have no hesitation in recommending Apex. Their service and staff are superb and are a pleasure to deal with."
