

Tiger Tiger (Novus Leisure Ltd.) Glasgow City Centre

"Communication within our Tiger Tiger venue is crucial for both staff and customer safety alike, which is why two way radios play such an important part in how we operate.

When it came to replacing our existing radios, we decided to look around to see how we could get the latest radios for the best possible deal.

We came across Apex Radio Systems as they provide two way radios specifically for the leisure industry.

Their service from day one was exceptional and they've provided us with an excellent price for an upgrade to Digital radios, which deliver double the capacity with improved clarity and battery life, compared to the analogue radios used in the past.

Apex now provide our internal radios and also fully manage and support our Pubwatch scheme radio system.

For any other Tiger Tiger venue or indeed any company looking to improve how they communicate I would definitely recommend speaking with Apex Radio Systems."

Kaley Bostock - Assistant General Manager
