

Keeping You Safe

UK's No. 1 for Quality, Service and Value

Newcastle United Football Club St. James' Park Premier League Football Stadium

"Since 1993 Apex has provided Newcastle United Football Club with two way radio communications for use at St. James' Park Football Ground.

Apex is responsible for the service and maintenance all of the radio equipment used at our grounds and we have never been let down with our unique and urgent requirements.

Staff working in all departments use handportable radios for instant communications with colleagues, from Security to Stewarding and Maintenance to Match Control.

The service we receive is second to none, with qualified engineers available to speak with or visit our stadium at short notice to ensure all our radio products are in full working order.

This kind of service is a must for NUFC to ensure we can offer total safety and security to our 52,000 capacity crowd on match days.

I would not hesitate to recommend Apex to any company who needs a cost effective and reliable service provider for radio communications."

Steve Storey – Head of Safety and Security
