## Monument Mall Shopping Centre Newcastle upon Tyne City Centre

"For many years Monument Mall Shopping Centre has used two-way radio equipment to enable contact between key staff and our security team on site.

In 2010 it became time to replace our old analogue radio system and as we already had dealings with Apex Radio Systems, as they are the supplier of the Newcastle Shopwatch Radio Link Scheme, we asked them for advice on the best way forward.

Apex advised that new digital radio equipment, which provides a totally secure on site radio network, was the latest in technology. Knowing we were looking to invest in a radio system which would continue to be workable for many years to come we knew this would be the best option for Monument Mall Shopping Centre.

Apex has now installed a fully capable and reliable Motorola digital radio system within Monument Mall Shopping Centre.

This new equipment is now providing high quality communications between staff and ensuring we are able to continue offering a safe and welcoming environment to all of our visitors. And these important factors help the retailers based at Monument Mall Shopping Centre to offer their customers a professional service."
